

# OUR REMOTE TRAINING COURSES

## OVERVIEW

**Powerpoint Engineering** are industry leaders in providing a range of specialised training courses.

Our **remote training courses** are designed to provide you with complete flexibility and receive the same great training experience but from the comfort of your own home or office.

Like our scheduled or on-site training courses, the same agenda will be followed and you will have the opportunity to interact and ask the trainer questions.

Our training courses are conducted by highly qualified and experienced training instructors with many years of experience and expertise in their respective fields.

## ONLINE TRAINING COURSES AVAILABLE TO YOU

- Lockout Tagout Safety Awareness Training
- Arc Flash PPE Safety Awareness Training
- PAT Training
- PAT Refresher Training
- Substation Safety Basic Principles
- Electrical Rescue Board Training
- Hire & Rental Electrical Safety Training
- Electrical Appreciation Training
- *Any course tailored to your requirements*

## SYSTEM REQUIREMENTS FOR ATTENDEES

You can attend training from anywhere using:

- A compatible computer or mobile device
- An internet connection of 1 Mbps or better (broadband recommended)
- A microphone and speakers so that you can interact with our trainer

We will provide you with a link to install the remote training software required so that you can join a training session at a given date and time.

The training course booklet will be available to download and print prior to completing the training session.

## ASSESSMENT & CERTIFICATION

For most of our courses, you will be required to complete an online examination at the end of the training session. Upon successful completion, you will receive a certificate of attendance.

*We are a registered training provider as awarded by Engineers Ireland.*
